

Advisory Board- Cynthia Bortfield

It is a pleasure serving on a board dedicated to assist other committed directors in their endeavor to secure a safe, nurturing, and stimulating learning environment for our island children. Organizing informative sessions for our directors, creating a system of better communication, and providing some financial assistance for workshops or higher education are a few of our goals for this year. We look forward in a successful and fulfilling year as we learn to become the best directors we can be as well as learning to relax and enjoy our families.
